A persistent bad cold will run into consumption unless it is relieved in time. So it is with the little daily wants of the people—they grow serious if not promptly filled. You can afford, for instance, to have that house tenantless for a little while, but when it continues tenantless month after month it becomes a serious matter. The timely want ad. ends the trouble.

Janesville Daily Gazette, Thursday, April 27, 1861.—Found.—Last evening near the residence of William Horton Esq., a nearly new merchandise pipe; had a long clumsy stem with a flexible mouthpiece. The owner can have it by calling at this office, proving property and paying for this advertisement.

The Champion Circus.—This great show made its entrance into our city this morning according to previous announcement. The band passed through some of the principal streets, mounted on beautiful horses and discharging sweet music. We had no opportunity of witnessing the performance this afternoon, but understand that it was first-class in every respect, and devoid of that roughness which so frequently characterizes these entertainments. Mr. J. L. Howes who presides over the ticket office is a courteous and affable gentleman who fully understands his business.

Plant Shade Trees.—The following

Coming Attractions.

Manager Myers has a menu this season that contains many theatrical delicacies which will meet with the approbation of those fussy and critical. Perhaps the most palatable being "Uncle Tom's Cabin" which is underlined for April 30th. No doubt many who have witnessed minor productions of the play, and have been successfully lured by barnstorming aggregations, will be a trifle timid, having formed an idea that because once deceived it must be so always. That would be a poor answer to a question. Because you happened to be a lover of the canvas back, until some incapable chef prepared the bird in an unwholesome manner, should you imagine that you would receive the same at Delmonico's? Theatrical managers and chefs might be classed under the same heading—they serve public fancy and palate, and must be careful scholars of the art if they choose to hold patrons. "Uncle Tom's Cabin" has been "done"

sensible advice is from the Milwaukee Wisconsin, and is just as applicable to this city as that. "Now for the season to plant shade trees." For a few dollars any citizen who owns a house and lot can get his homestead ornamented with trees that in a year or two will enhance its value from 25 to 50 per cent. A house, not even fine or comfortable, if only surrounded by beautiful trees will always be saleable, where a break and barren house along side of it would be rejected by a buyer. So even viewed in a sensible light, it will pay to plant. Do not neglect to plant a row along the side of the sidewalk in front of your premises. If there was a general movement of this nature among the property owners of this city in a year or two property throughout the whole city will appreciate greatly, as it would be rendered the most pleasant and handsomest avenues in the city. The trees will grow to suit you, are cheap, and no investment will pay so well. Plant a dozen this year and a dozen next year, and so on until every plot that needs a tree to ornament it, has one.

Fond du Lac Reporter: The Russian story to the effect that the Japanese have been successful in their submarine boats in the United States may do for consumption in other parts of the world but in this country it will be taken with a great deal of allowance. The United States government has been hunting unsuccessfully for inventors who can furnish such craft. We may need them in our business sometimes, but have thus far been unable to get them.

NATURE SPARES
The Stricken Rose From Grief.
What a fortunate provision of nature it is, that deprives the mind of suffering; for how poignant would be grief to discover, in the height of its blooming glory, that a cancer fed at its roots, and that its beauty and fragrance were doomed forever. Nature always spares the suffering; she is a veritable store-house of pleasing rewards, for those who seek her aid. In the years gone by falling hair and grayness have cast a gloom over the lives of thousands of young women, but thanks to the investigations of scientists the true cause of hair destruction is now known to be the hair follicles. Science's Herpetoid absolutely destroys this germ, thus permitting the hair to grow as naturally intended. Sold by leading druggists. AMONG THE WORLD'S WORKERS

News Notes From Various Sources Great Interest to the Workmen.

A large firm of brewers in London, Eng., are employing young ladies to go from house to house canvassing for orders for beer. A number of them have been very active in Thames-side towns and have succeeded in getting orders where male canvassers have failed.

The scale of wages agreed upon by the Baltimore & Ohio telegraphers and company was signed recently. It gives an increase in wages to the men of \$30,000 a year. This increase makes the telegraphers cost the company exactly \$100,000 more for the ensuing year than formerly. The increase of \$70,000 was made a little more than a year ago. It is understood that the men will later make another demand for increased wages for those who have not come under the last two agreements.

Last year in Australia 13 factories were closed by the inspectors because the factory laws were not obeyed. Altogether 16,773 factories were visited, 559 manufacturers were found to be negligent and 14 were fined to the amount of \$1,550.

Free employment bureaus are in successful operation in thirteen states in this country. Eight foreign countries also have the same measures. A move is now on foot to establish a similar bureau in Massachusetts.

There is no change in the strike situation in the glove factories at Gloversville, N. Y. The strikers are still out and the prospect of an early settlement seems as remote as it did three months ago.

More than 100 labor unions in Cleveland, O., will be united into one great organization to be known as the United Trade and Labor Council. A large building will be erected by the organization as a labor temple.

The American Federation of Labor has arranged its exhibit for the St. Louis Exposition. It will comprise numerous group pictures of the officers of the organization and of executive boards of many of the subordinate unions and associations, photographs of the various charters, charts showing number and their membership of international unions affiliated. The exhibits will include gold medals and diplomas awarded to the organization at Paris and the pens used by President Cleveland in signing the bill to make Labor Day a public holiday, and by Governor Hunt of Porto Rico, in signing the eight-hour law for that island.

It is said that the recently organized brotherhood of railroad freight and baggage men of America already numbers 25,000 members. Nearly all freight and baggage employees of the roads as far west as Chicago are in the membership in Canada is also large.

Workmen in Sweden are preparing for an extensive political strike in case they are not granted the right of suffrage. The immense demonstrations of 1902, when nearly all industrial Sweden stood still, is not forgotten by the workmen, and the next affair, it is promised, will be much more serious.

There are 2500 unions in New York State, with a membership of 400,000.

CHARGE MOTHER WITH MURDER

New York Officials Say She Killed Her Daughter for Life Insurance.

Blanchampton, N. Y., April 28.—Mrs. Hester De Witt was arrested at Sidney, Delaware county, on the charge of murder in the first degree.

It is said she poisoned her 17-year-old daughter, Florence Mackintosh, with arsenic. She had always called the girl her stepdaughter, but when arrested she admitted Florence was her own child. The evidence before the coroner's jury indicated that the mother had caused the girl's death to obtain \$2,000 life insurance. When arraigned before the coroner Mrs. De Witt was apparently the most unconcerned person in the room, taking her seat carelessly and picking up a paper to read about her case. She waived examination and was held to the grand jury.

CASH WILL SOOTHE HER HEART

Indiana Maid Asks \$10,000 for Breach of Promise.

Crawfordsville, Ind., April 28.—Miss Minnie Wade, a pretty young woman of Franklin, Ind., has brought suit here against George Livings, a farmer near this city, for \$10,000 damages. Miss Wade alleges that she and George were engaged to be married this month and that she had completed her wedding outfit. Recently she was horrified to learn her lover had deserted her without a word and had married a young woman living at Hartford City.

Police Kill Negro.

Oakland, Cal., April 28.—After an all-night battle in which 100 shots were exchanged, a house in the heart of the city which had been barricaded by negro sharpshooters was taken by the police. Sam Smith, the negro who was the original cause of the trouble, was shot and killed.

SPRING—TIRED—MALARIA

"I suffered with chills and fever and my skin was growing very sultry. The slightest draft would be enough to cause hot flashes or a quick chill. We thought it was malaria, but never yet explain how I contracted it. I always had a dragsy feeling, and would get up in the morning feeling dull and tired, and would be tired all day."

"I was advised by a relative to try Paine's Celery Compound which had helped her considerably, and I had such a good night's rest and woke up so refreshed that I determined to continue it."

"I do not feel any more fatigued, and I am cheerful all day long. I get through my work with satisfaction and work faster and better. The chills and fever are completely cured. This is just the time of the year when I used to have the worst, and I have not had a single chill. My complexion is better, and I can recommend Paine's Celery Compound as a gradual and thorough cure for malaria."

Miss Edna Arlington, Newcastle, Neb.

"Trace every disease, blood trouble or pain to the TRUE CAUSE. Paine's Celery Compound is only the sign or symptom. It is idle to treat the pain itself. The only true cure for blood impurity or suffering in the cure that CURES THE TRUE CAUSE—Weakness of the INNER Nerves."

HOW IT WORKS IN MICHIGAN.

The State of Michigan is suffering from Plagiarism, and the transportation and industrial interests are so badly crippled that grave danger to the welfare of the state is already apparent.

The late Governor Pingree was a fatalist and a reformer. He imagined, like Governor La Follette, that the railroads of the state defrauded the people, and his official life was devoted to fighting this class of corporations.

He had a following because he posed as the friend of the masses, and a legislature in sympathy with him, passed laws providing for a rate commission, and the ad valorem system of taxation.

This law is now in force, and it is proving so burdensome that the railroad interests are crippled and will continue to be until public sentiment is aroused, and comes to their relief. Under the new law railway taxation is doubled and the short lines, whose business is confined to the state are complaining bitterly of injustice.

The Grand Rapids and Indiana road operates 600 miles in Michigan. Its gross earnings last year was \$4,000,000 and its net earnings about \$800,000. The taxes on this company in 1902 were \$100,761, and under the new law in 1903, \$202,909, more than 25 per cent of its net earnings. The president of the road, James McGraw, in speaking of it says:

"Think of it! The State of Michigan with its present need of development taxing a road earning less than \$8,000 per mile over 6 per cent of its gross earnings, as compared with the States of Pennsylvania 2.6 per cent, Indiana 3.03 per cent and Ohio 3.46 per cent. The taxes collected from railroads accrue under the laws of the State to the School Fund, and it is credibly stated and not denied that some of the school districts are at this time actually loaning money on interest, notwithstanding the railroads are withholding the payment of the increased tax pending the results of the litigation now in progress between the railroads and the State. Your President and General Counsel have used their best efforts to make known to the Tax Commission the effect that the doubling of taxation will have on your property, but wholly without effect, and therefore it seems proper to your Board to include in this report the above statement of facts as they exist."

The Commercial and Financial Chronicle in commenting says:

"The Grand Rapids and Indiana railway is only one road in Michigan, and, as we have seen, a small one at that. All the other roads are suffering in the same way. Taxes in every case may not have increased proportionately as much as those of the Grand Rapids and Indiana, since the larger systems have considerable mileage situated in other States; but nevertheless all have had their tax burdens heavily increased. It is estimated that the taxes of the Michigan Central for 1903 were \$150,000 larger than for 1902, bringing them up to \$700,000. The amount paid out in dividends by the Michigan Central in the same year was \$719,320, so that this company's call for taxes was almost as large as its payments in dividends. In the case of the Grand Rapids and Indiana the tax payments were more than the dividend payments. The Pere Marquette Railroad is being mulcted \$180,000 in excess of what the road's officials think it should justly be asked to pay. There has as yet been no decision in the Federal courts bearing upon the validity of these various inordinate taxes, though nearly all the leading roads have actions pending in these courts, challenging their legality."

But will the railroads alone be hurt by this condition of things? Will not the new policy react disastrously upon the State itself and its people? We have seen that, owing to the dying out of certain industries in the state, there is special need of attracting capital to build up and extend other industries. Instead of inviting a new inflow of capital, the State is pursuing the very course that most repel it. Is it not time for the intelligent people of the State to awake to a realization of what the new legislation and the new political influen-

ces which are dominant in the affairs of the State mean?"

This is Michigan under Plagiarism and Wisconsin is courting the same condition under La Folletteism. Michigan did not wake up in time to avoid the danger, and it remains to be seen whether Wisconsin will act any more wisely.

THE RAID OF THE THIRD-TERMERS.

"Gov. La Follette, as the chief of the Third-Termers in Wisconsin, has concluded to try his hand in order to persuade the people how much they would gain financially by sustaining his aspirations for a third term as governor of Wisconsin. He therefore has condescended to speak to the people of La Crosse Tuesday evening, at Ripon and Fond du Lac Wednesday, and in Milwaukee Thursday, and to enlighten them as to their duty to sustain the Third-Termers in their selfish efforts to grasp a continuance of their power for two years longer."

Hammer away, Governor, and tell the people how happy you are in being lord of the treasury of the state, and hoping so to continue for two years longer!

"True Republicans, work on, work on! You have great duties to perform this week in your war against the Third-Termers. They expect to win as they did in Dane county by enticing 1,600 democratic voters into the caucuses, and thereby assure a result favorable to La Follette. Do not forget the sentiment of Jefferson and Franklin, 'Eternal vigilance is the price of liberty!'"

The above editorial from the Evening Wisconsin has the right ring to it, and coming from this conservative paper is significant. The "Wisconsin" has been doing good work of late and the paper is fully aroused to the dangers of the third term proposition.

The city of Milwaukee is vitally interested in the outcome of the struggle now going on and it fully aroused she will consult her own interests by sending a solid delegation to Madison to vote and work against an administration that is a menace to the state.

The time has come to call a spade a spade. The gavel was thrown into the ring by the opposition when they declared that harmony was not wanted, and it is a fight to the finish. There should be no doubt about the outcome. The interests of the state are of vastly greater importance than the ambitions of an individual.

The business interests, both commercial and industrial, are solidly arrayed against prejudice and ignorance, inspired to action by a dening of pronounced type. There is grave danger in the situation and it is surprising that this fact is not more fully appreciated.

MORE DESPERATION.

The Governor is tearing around the state this week in a final effort to enlist the sympathy and support of God's Patient poor in his behalf. He is the first and only specimen of this sort of lunacy that the state has ever produced.

There is supposed to be some dignity and self respect attached to the office of Governor but all this is thrown to the winds in a mad rush for a third term. The spectacle is humiliating and disgusting. It should lose him the support of every county yet to vote.

There is a limit to what a man can afford to do for himself when seeking office, but all limits are ignored by the third term candidate for Governor. He claims to be a republican, but if nominated he will be nominated by democrats as he was two years ago. A glance at the Madison caucuses will convince anyone of the truthfulness of the statement.

Wisconsin is suffering a reign of La Folletteism. It is as much of a lull on republicanism as was Plagiarism in Michigan or Communism in Iowa. It is simply populism sailing under false colors and while it may captivate the masses, it is as dangerous as the most wild-eyed scheme of Kansas in its wildest days.

That J. M. Postwick is interested in the prosperity of the city is evidenced in the fact that he headed a subscription list and started out to raise \$1000 to secure the new shoe factory. The town needs more men of this kind.

The late Governor Pingree of Michigan was popular with the masses, because he denounced railroads and corporations. Wisconsin's Governor enjoys the same kind of popularity. Michigan is repenting at leisure and Wisconsin may have an opportunity to do the same.

Caucus results in Douglas county were not a surprise. The people of that county were infatuated two years ago, and have not yet recovered. The county needs saving from its own folly.

There's nothing like congressional dignity as a cover for timid politicians. If the state goes by default the congressional delegation will not be free from censure.

The first district will be represented in the national convention by conservative republicans. The three counties which have voted have a majority of the delegates.

Three fourths of all the city sewerage is now being emptied into the river in the heart of the city, and no one complains of sanitary conditions.

Did the Governor make any votes in Milwaukee? The caucuses Friday night will determine.

PRESS COMMENT

La Crosse Leader-Press: The man who is not too deeply interested in the success of either party or any faction of either party should be well entertained this year.

Chicago Tribune: Commercial Tribune: In guaranteeing France a free hand in Morocco, it was merely the intention of England to put Morocco on her uppers and give her neighbor sole control.

Chicago Tribune: Editor Bok prints in his Ladies' Home Journal the pictures of "the most beautiful children in the United States." They number two or three dozen. But Editor Bok always was a fearless man.

Milwaukee Sentinel: Whatever his secret plans may be, no one will believe that Gov. La Follette is in favor of the nomination of either Baensch or Babcock.

Racine Times: An eminent astronomer has figured it all out and finds that the canals on Mars are exactly sixty miles wide. He hopes to be able to give us the dimensions of the canal boats in a few days.

Madison Journal: The governor made his first gain on Saturday in carrying Forest county, 2 votes. That county went for Whitehead two years ago, but W. D. Connor of Marshfield, whom the governor is coaching for lieutenant governor, with an implied promise of something better, owns the only mill in Forest county, which in the sparsely settled section gives him control this year.

Oshkosh Northwestern. In spite of the most desperate efforts of the La Follette men the opposition managed to organize and control nearly all of the preliminary meetings held in Milwaukee wards Monday evening, and the governor's organ of course sets up the usual howl that it was accomplished through "fraud and coercion."

Minneapolis Times: The Chicago man who reared his daughter in ignorance of the fact that \$250,000 was awaiting her disposal and then unfortunately lost it before she was aware of its existence, will have a hard time convincing the girl that he was acting entirely for her good.

El Paso Herald: A British parliamentary paper finds much food for thought in the fact that the United States has more battleship tonnage than projected and constructed than any other nation, 299,156. Great Britain has 187,000; Russia, 125,270; and Germany 105,976. And they are pretty good battleships we build.

Medical Record. The General Superintendent of the Hospital for the Insane at Dunning, Ill., believes that music will act beneficially on the minds of patients, and a curative influence on the inmates. The musical instruments, which, with a supply of games, and a moving-picture machine, were purchased out of a fund of \$1,400 secured by donations, are later to be distributed to the various wards of the hospital and kept in use at all times. It is believed that these entertainments will take the patients' minds off their broodings and melancholy thoughts.

Oconto Reporter: If La Follette loses, Mr. Baensch is not likely to have enough to nominate him at first. Then where will the break come? It is rather improbable that either Baensch or Cook delegates will go to La Follette, as the delegates of both these candidates will have been elected in opposition to him. Under prolonged balloting the Baensch forces are more likely than otherwise to gain by acclamations from the Cook supporters and even from La Follette, but on the other hand, Cook has in times past been a strong La Follette supporter and it is possible that the La Follette forces, most of whom have been elected in contests with Baensch supporters, may, when they see their own candidate cannot win, break to Cook. It is likely to be a pretty tight worth watching.

"The Pillage Ball." Look for it.

PUTNAMS STORES

FURNISHED HOTEL

The New Myers Will Be Equipped by the Two Big Stores of C. S. Putnam.

If any argument were necessary as proof that Janesville stocks and stores compete with the world successfully, the fact that C. S. Putnam has furnished the entire bill of furniture and the entire bill of china, glassware, toilet-ware, crockery and silverware for "The New Myers Hotel" is a demonstration of considerable weight. The orders were given the Putnam stores because of high qualities and of moderate prices. The competition for the business was sharp, and Mr. Donnelly, the proprietor of the Hotel Myers, is a keen buyer, a good judge of merchandise. The largest concern in Milwaukee and the three biggest houses on State street, Chicago, submitted prices and in the face of this the Putnam stores' figures and qualities secured the business. There are two big furniture carloads of the order, and the goods selected are certainly handsome. The furniture includes office, dining room and bed room complete, and the first car has already arrived.

Mr. Percento did not make a very favorable impression with the local sporting fraternity. His habit of sprinting on Milwaukee street during business hours instead of taking to the country roads during the early morning struck them as a flagrant violation of the ethics of the ring. The visitor was somewhat taken aback when his bet was taken up and the money was never placed in the referee's hands.

House That Silent President Owned Is Presented to the City.

Galena, Ill., April 28.—The twelfth annual celebration of Gen. U. S. Grant's birthday was held here Wednesday, a large audience filling Turner hall. Bishop Samuel Hallows of Chicago made the principal address and paid a glowing tribute to the great commander under whom he fought during the civil war. Gen. Fred D. Grant and wife were prominent among those present. The feature of the day was the presentation by Gen. Grant to the city of Galena of the residence formerly owned and occupied by his father. LESSON TAUGHT BY AN EXAMPLE

DRINK WAS THE CAUSE OF GOOD MAN'S DOWNFALL.

ONCE A RESPECTED CITIZEN

Coman Was at One Time Postmaster of Trempealeau—Goes to Prison for Two Years.

"Drink is at the bottom of all my troubles," said C. D. Coman in the Dane county jail after he had been sentenced by the United States court to two years in the federal prison at Leavenworth, Kansas, on his plea of guilty to an indictment nearly 10 years old charging embezzlement of \$700 of money from the government while postmaster at Trempealeau. For years a fugitive for justice, prematurely aged with whitened hair and rounded shoulders from the haunting fear of guilty conscience, the prisoner told his story of a life ruined by the liquor habit. "Why, I used to be so addicted to the booze that I would not wait for my assistant to come into the office but would leave anybody who happened to be there while I went out for a drink," said Coman. "But I have not taken any in nearly eight years," he continued. He told his travels through Illinois, Indiana, Ohio, Kentucky, Tennessee, Iowa, Missouri, Kansas, Nebraska, Montana, Idaho, Washington, California, Mexico and Nevada looking for employment and seeking to evade recognition and the process of the law. He found it most difficult to obtain work of any kind and was accustomed to hard labor. He did not know that a warrant had not been issued in eight years but imagined that every man he met was a detective. He adopted the alias of C. D. Coyle. Coman served as postmaster of Trempealeau for two terms. His first term of five years was straight and so audited by the department. His second term began October, 1893, when he succeeded Postmaster E. Collins who was ill and resigned. The shortage occurred in December and January, 1893-4, and the indictment was returned the following winter. But Coman was at the Dwight Keeley sanitarium when he learned of the action of the government officers and left for distant parts. His shortage was \$700 but Coman says that he did not use all of it himself and does not know what became of it. He has a wife and three children still residing at Trempealeau whom he has not seen in 10 years. His family knew of his presence in jail at Madison but made no effort to visit him. It is said by some that when Coman left Wisconsin a woman accompanied him and it is known that he was on friendly terms with a woman in the west known as Mrs. E. A. Robinson in Fallon, Nevada. It was at this point that he surrendered to United States Marshall J. F. Emmett. It was reported yesterday that the reason for his surrender was a quarrel with Mrs. Robinson who threatened to disclose him to the authorities. Besides the sentence of two years at Leavenworth Judge Dunn imposed a fine of \$700. Coman asked the court for mercy at the time he pleaded guilty.

"No one knows what I have suffered since that time," said the prisoner. "but I tell you it came hard at times to ask and beg for food. I wish I could warn every young man to abstain from strong drink and have him take a lesson from me. But there is a terrible weight off my mind now and I don't fear the coming two years. I will come out free and will make a man of myself yet."

CALLED BY DEATH THIS MORNING

Miss Katherine Connors Passed Away at Early Hour, in This City.

Miss Katherine Connors was summoned by death at six o'clock this morning at the home of Mr. and Mrs. Frank Thompson, on Gold street, after an illness of several weeks from the effects of lung trouble. Miss Connors was taking medical treatment up to two weeks ago in a Chicago hospital before coming to this city. Deceased was for many years employed as head waitress at the Hotel Myers. The only relatives to mourn her loss are Miss Mary Scott, Burlington, Iowa; Daniel Leyon, Des Moines, Iowa; and Andrew Connors of Chicago. Her many friends in this city will be pained to learn of her death. Funeral services will be held Saturday morning from St. Patrick's church at 9 o'clock.

WILL RAISE TONS OF BEETS HERE

It Is Expected That All Records of Past Years Will Be Broken by the Farmers.

This year will be a record breaker for the beet sugar industry in Wisconsin if the plans of the Wisconsin, the Chippewa Sugar and the State County Sugar companies are carried out. Last year the farmers of the state raised about 55,000 tons of sugar beets, which were converted at the Monona-Palis plant of the Wisconsin company. The recently incorporated Chippewa Sugar company, owned by the promoters of the Wisconsin company, is rushing work on its \$700,000 plant at Chippewa Falls, and this will be completed October 1. The officers of the companies expect to handle over 60,000 tons of beets at each plant this year. This, at a valuation of \$5 a ton, the average price, will mean that about \$600,000 will be paid to the farmers who raise the beets. The product of the two factories, 12,000 tons of sugar, will be valued at about \$1,200,000, including the value of the by products.

"We are now rushing work on the Chippewa Falls plant," said J. S. Lawson in the offices of the Wisconsin company, "and it will be finished Oct. 1, in time to care for the crop. The output in the state will be double that of last year. We are still conducting experiments in other portions of the state to test the adaptability of the soil for beet raising, and there is now no doubt that another plant will be erected next year."

QUEER APATHY IS DISPLAYED

REGARDING ENFORCEMENT OF NEW GARBAGE ORDINANCE.

QUESTION ITS FEASIBILITY

Some of the City Officials Style It "Too Elaborate"—Health Officer in Favor of It.

Upon its third publication on Friday last the ordinance providing for the regulation of the collection, removal and disposal of garbage in the city of Janesville became "in force" and its provisions are binding on citizens and officers alike. Yet, when inquiry was made as to what had been done to comply with and enforce the measure, the impression seemed to prevail that the whole matter was still open to debate. Several of the officers were of the opinion that the new system was too elaborate and expensive for a city like Janesville and ventured the opinion that it would never be enforced.

What It Contemplates
Reduced to its simplest terms the ordinance provides for the division of the city into one or more (not exceeding four) garbage districts, with a collector in charge, the latter to be provided with a water-tight metal-lined wagon by the city. All dwellings in the district who do not burn or otherwise immediately destroy the garbage from their homes or places of business are required to furnish water-tight vessels with handles and not over two bushels capacity. Collections are to be made daily in the business district during the months of June, July, August and September; three times a week during the months of April, May, October, and November; and twice a week during the remaining months. The city is to bear one-third of the expense and the property holders are to be assessed by the street assessment committee. It was the plan of former Alderman Mills who framed the measure to have only one district at first, comprising the business section of the city. If the system was found to meet all requirements it could later be extended to the residence portion of the city.

Health Officer Favors It
One official ventured the opinion yesterday that it would cost \$2,000 to buy uniforms for the garbage collectors, provide them with an outfit, and get the system underway. "This appeared to be begging the question in having the city cleaned up and kept clean. The ordinance says nothing about uniforms. It calls on the city to get a water-tight wagon and a team and employ a collector. Health commissioner Merritt said that he believed the plan was a good one and could see no reason why it should not be enforced. Alderman Matheson said that he had voted for the measure with the expectation of seeing it enforced. But several other aldermen interviewed said that they understood that the ordinance was going to be repealed at the next meeting of the council."

AN EVENING OF SOCIAL ENJOYMENT

Members of the Women's Union La bel League Have Pleasant Time at Home of Mrs. Wm. Butts.

Members of the W. U. L. L. and their friends were delightfully entertained Wednesday evening at the home of Mrs. Wm. Butts of 122 Hixson Ave. Card playing was the chief attraction of the evening. But when the young people heard the sweet strains of the music played by the Echo Mandolin Club they could not resist the temptation to trip the light fantastic toe, so that pleasure reigned supreme. A delicious lunch was served. At a late hour the guests departed for home, all vowing the party a grand success, and the entertainment they received faultless, particularly that furnished by the Mandolin club. They will remember by the League on many a future occasion.

Special Meeting
There will be a special meeting of the W. U. L. L. Friday evening at their hall at the usual hour.

BISHOP TO BE HERE ON SUNDAY

Will Visit Both Christ and Trinity Parish and Confirm Two Classes.

The Episcopal visitation of Bishop Nicholson is an annual event which is looked forward to, not only by the members of the two parishes, but by a large circle of persons interested in his strong personality and powerful sermons. Janesville is especially favored in having him here always on a Sunday by reason of the fact that there are two parishes. Many, indeed, the large majority of parishes throughout the diocese must be content with a week day visitation, and even then the bishop's time is largely taken up with Episcopal visitations, while the extensive correspondence which is necessarily forced upon him, leaves him little leisure when at home. He spends but a few Sundays at his cathedral in Milwaukee, there being a staff of clergy to carry on the work at the cathedral. The bishop will be at Christ church on Sunday morning and at Trinity church in the evening. Trinity church was especially fortunate in being able to secure the bishop's presence for the blessing of the new windows in January, and will have still further improvements to call his attention to, in the new sanctuary floor and electric lights which have proved to be a vast improvement over the old system of lighting. The evening service at Trinity church will begin at half-past seven, and the bishop will administer the sacrament of confirmation and preach.

REV. VAUGHN WILL SPEAK ON "SIN"

At St. Mary's Church This Evening—He Will Undoubtedly Have a Large Audience.

Last evening at 7:30 o'clock Rev. L. J. Vaughn conducted the opening services of a five days' retreat to be given at St. Mary's church under his direction. The subject of his sermon was, "The Religious Evil of the Hour," which was handled in an able manner by the speaker. Rev. Vaughn is a most gifted speaker, his voice is a powerful deep one, and his dramatic force was manifested in every word he uttered. The subject for tonight's sermon is, "Sin," and it is expected that the church will be crowded to its utmost capacity this evening.

ONLY ONE COMPLAINT

A certain gentleman after eating a loaf and a half of our home-made potato bread for his dinner yesterday was telling us how good it tasted, but said he didn't feel well afterwards. We do not advise such a liberal use of even a good thing and think that loaf and a half should have been enough for his family. We bake 500 loaves of this truly famous bread a day and sell it to you at 4c a loaf. Fancy strawberries, qt. boxes, 18c. Wine cookies, secret recipe, 10c doz. Fried cakes, unmatched, 10c doz. Pork and beans, stone pots, 10 and 15c.

Rye bread, our own make, 5c. MEAT DEPARTMENT.—Veal roasts we have been selling at 15c a pound. Mr. Heli says that 10 to 12c is enough for them. Boiling beef, he says, sell at 4, 6 to 8c lb.

Fresh ham and loin roasts, 12½c. Stoppenbach's bacon he says talk loud about and sell at 12½c lb. Lump and rib corn beef, our own cure, 6, 10 and 12c lb. Beef tenderloin, 18c lb. Absolutely pure kettle rendered leaf lard, 10-lb. pail \$1; 5-lb. pail 50c. Roast beef, 10c lb. Salt pork, 10c lb.

ILLINOIS VETERANS IN PARADE

Two Thousand G. A. R. Members in Line at Springfield.

Springfield, Ill., April 28.—The feature of Wednesday's meeting of the annual encampment of the department of Illinois, G. A. R., was the parade of 2,000 veterans, escorted by Sons of Veterans and Springfield high school cadets. Morning sessions of the G. A. R., Sons of Veterans, Woman's Relief corps, Ladies of the G. A. R. and the Ladies' Aid Society to the Sons of Veterans were occupied in hearing addresses and reports of officers. Department Commander Benson Wood in his address, speaking of the service pension law, stated that hope of the law being passed at this session of congress had been dispelled, but that the recent order of the commissioner of pensions had afforded some relief. Reports show that 552 G. A. R. posts are in good standing in the state, a gain of two during the year. Membership Jan. 1, 1904, was 20,519, against 21,025 Jan. 1, 1903. Loss by death during the year was 753 and by suspension 1,062.

Plant Oak to Roger Williams. Providence, R. I., April 28.—The expulsion of Roger Williams, founder of Providence, from the Massachusetts colonies by Gov. Winslow in 1635 was commemorated April 27 by the planting of an oak tree on the site of the hut occupied by the preacher in East Providence.
